@ Alois Lageder

20th Anniversary

In den historischen Weingütern *Casòn Hirschprunn* und *Tòr Löwengang* in Margreid feiern wir dieses Jahr gemeinsam mit Partnern und Freunden aus aller Welt ein besonderes Jubiläum: seit **20 Jahren** vereinen sich in unserem Weingut in Margreid qualitätsbewusste Winzer aus aller Welt, um einem internationalen Publikum ihre Weine zu präsentieren.

Bewusst setzen wir in diesem Jahr den Akzent auf das Jubiläum und beginnen die Feierlichkeiten am Samstag, 8. April, dem Vorabend der Veranstaltung mit einem **Walking Wine Dinner**. Zusammen mit *Care's – The Ethical Chef Days*, organisieren wir ein rauschendes Fest

Quest'anno, nelle tenute storiche di *Casòn Hirschprunn* e *Tòr Löwengang* a Magrè, con amici, clienti e fornitori provenienti da tutto il mondo festeggeremo un anniversario speciale: sono ormai **20 anni**, infatti, che nella nostra tenuta si riuniscono vignaioli d'eccellenza da tutti gli angoli del pianeta, per presentare i propri vini a un pubblico internazionale di esperti.

All'edizione di quest'anno vogliamo dunque dare risalto a questa ricorrenza, anticipando l'inizio del programma a sabato 8 aprile, con un **Walking Wine Dinner** indetto per la vigilia dell'evento. Con la collaborazione dell'iniziativa *Care's – The Ethical Chef Days* abbiamo in programma

This year, we are celebrating a special anniversary with partner and friends from all over the world in the historical venues *Casòn Hirschprunn* and *Tòr Löwengang* in Magrè. Every year for the last **20 years**, quality-conscious vintners from all over the world have come together in our wine estate in Magrè to present their wines to an international audience.

To celebrate the anniversary in style, we start off on Saturday evening, April 8th, with a **Walking Wine Dinner**. In collaboration with *Care's – The Ethical Chef Days*, we are organizing a big party with seven celebrity chefs offering an exciting culinary experience to clients, partner, journalists

an dem sieben internationale Starköche Kunden, Partner, Journalisten und Weinliebhaber mit ihren Kreationen begeistern werden, sowie eine After-Dinner-Party im Anschluss an das Abendessen. Über 80 Weine der *Summa* Winzer können dabei verkostet werden.

Mit der Initiative *Care's* teilen wir die Vision eines neuen, innovativen, nachhaltigen und ethischen Umgangs mit natürlichen Produkten, welche die Natur und ihre Rhythmen respektiert.

Am **Sonntag, 9. April** öffnen wir zum ersten Mal neben den Toren von *Casòn Hirschprunn*, auch jene des historischen Gebäudes *Tòr Löwengang*, um den Besuchern in einer ruhigen und entspannten Atmosphäre und die Möglichkeit zu bieten, bei zahlreichen Führungen und Verkostungen über 80 namhafte Winzer und ihre Weine aus aller Welt kennenzulernen.

una festa che si annuncia entusiasmante: ben sette cuochi di fama internazionale delizieranno con le proprie creazioni i palati di tutti i clienti, fornitori, giornalisti e appassionati enofili presenti alla cena. In abbinamento, una selezione di oltre 80 etichette di *Summa*. Dopo la cena seguirà un after-dinner-party.

Col progetto *Care's* ci accomuna l'ideale di un rapporto innovativo, etico e sostenibile che rispetta la natura e i suoi ritmi.

Domenica 9 aprile, poi, oltre a *Casòn Hirschprunn*, per la prima volta apriremo le porte dei saloni storici del palazzo *Tòr Löwengang*, in modo che i visitatori possano assistere, in un'atmosfera consona e rilassata, alle numerose visite guidate e degustazioni, incontrando di persona più di 80 vignaioli di grande fama provenienti da tutto il mondo e presenti coi propri vini.

and wine lovers as well as an after-dinner-party following the dinner. Over 80 wines from *Summa's* wineries will be served during the evening.

Care's and *Summa* have the same vision: a new, innovative, sustainable and ethical use of natural products with respect for nature and its rhythms.

On **Sunday, April 9th**, we will be opening the gates of *Casòn Hirschprunn* and – for the first time – also the gates of the historical residence *Tòr Löwengang*. In these quiet and relaxed settings, a program of guided tours and wine tastings will give visitors a wonderful opportunity to meet over 80 noted vintners and their wines from all over the world.

Auch das Thema Ökologie spielt weiterhin eine große Rolle für die erneut im Zeichen eines zertifizierten „Green Events“ stehenden Veranstaltung. Die Unterstützung für das *Haus der Solidarität* in Brixen, das seit Jahren mit Menschen in teilweise schweren Notlagen arbeitet, wird auch in diesem Jahre fortgeführt.

Un filone trainante dell'evento continua a essere quello ecologico, prova ne sia che pure quest'anno *Summa* è certificata come green event. E anche per l'edizione 2017, abbiamo confermato il nostro sostegno alla *Casa della Solidarietà* di Bressanone, che da anni accoglie e assiste persone bisognose, parecchie delle quali in condizioni di grave necessità.

Ecology will be very much on the agenda, too, as reflected in the fact that *Summa* has once again been certified as a Green Event. And we are continuing our tradition of supporting the *House of Solidarity* in Bressanone, which has done excellent work over the years with and for people in need.

Das Familienweingut Alois Lageder steht für erstklassige Weine aus Südtirol. Basierend auf einem erweiterten Naturverständnis erzeugen wir Weine, die die Kraft und das Gleichgewicht der Natur in sich tragen. Im Sinne einer biologisch-dynamischen Landwirtschaft entwickeln wir unser Wissen stetig weiter und tragen es in neue Bereiche. Das Unternehmen wird heute in fünfter und sechster Generation von Alois Lageder und Alois Clemens Lageder geführt.

La Tenuta familiare Alois Lageder è un sinonimo di vini d'eccellenza prodotti in Alto Adige. Con un approccio consapevole e lungimirante alle risorse naturali, realizziamo dei vini che custodiscono in sé la forza e l'equilibrio della natura. Ispirata ai principi dell'agricoltura biologico-dinamica, continuiamo ad acquisire nuove conoscenze, mettendole a frutto in nuovi settori. Oggi la Tenuta è gestita, rispettivamente in quinta e sesta generazione, da Alois Lageder e Alois Clemens Lageder.

The Alois Lageder family winery is the home of high-quality wines from Alto Adige. In accordance with the family's holistic understanding of nature, we create wines that contain both the force and harmony of nature within them. We are committed to biodynamic agriculture and apply our knowledge in new areas. The company is now in the hands of the family's fifth and sixth generations – Alois Lageder and Alois Clemens Lageder.

The ethical Chef Days

The estate of Tenuta di Biserno was discovered by Lodovico Antinori in 1995. After selling Tenuta dell'Ornellaia in 2002, Lodovico Antinori, together with his brother, Piero, and the landowner, Umberto Mannoni, decided to establish Tenuta di Biserno. Tenuta di Biserno is located few kilometres north of Bolgheri, upper Maremma. Tenuta di Biserno grows Cabernet Franc and Petit Verdot, above all. These grapes give the best results thanks to a microclima and Bolgheri conglomerate.

Tenuta di Biserno, thanks to a unique terroir, produces tree wines: Lodovico, only in the best vintages, Biserno and Il Pino di Biserno. Tenuta di Biserno is a project of passion by Lodovico Antinori.

Distinction and elegance, this is Pol Roger style. Founded in 1849, the House cellars extends to 7 km in the chalk below the city and are among the coolest and deepest in the region, contributing no doubt to the excellent, persistent mousse of small bubbles which distinguishes all Pol Roger champagnes. It is not surprising therefore that Winston Churchill and the British Royal Family made Pol Roger their favourite champagne.

Searching for the perfect terroir and conditions for viticulture, especially for Pinot Noir, Kai Schubert and Marion Deimling, both being graduates of the German Viticulture and Oenology University in Geisenheim, travelled the world. Their voyage took them to wine regions in France & Germany, Oregon & California, South America and Australia. In New Zealand their quest finally ended and they settled in Martinborough in the Wairarapa Valley founding Schubert Wines; a unique place producing low yields in the vineyards with excellent quality grapes resulting in internationally award winning wines with intense and complex character which are exported to 40 countries.

Founded in 1834 by a Champagne family passionate by the wines of its region, the Boizel House was established in Epernay, heart of the Champagne region. Thanks to the detailed knowledge of the Champagne terroir developed by each generation, the House has access to grapes coming from the best crus of the region, which is essential in order to create great Champagnes. From the vineyards to the cellar, decisions are made to respect the natural qualities of the wine.

Ognissole's Cefalicchio Estate is a biodynamic farm (Demeter certification since 1992) in Canosa di Puglia, located in a hilly area surrounded by pines, olives groves and vineyards of the Murgia region, a land rich in history and tradition. Since its establishment, the Estate's mission has been to invest in and enhance the local grape varieties, first and foremost the Nero di Troia. The vineyards are part of the Castel del Monte DOC area.

We have seen many, many vineyards. But this place – we came to love it before it even belonged to us. Love at first sight for two friends Jean Natoli and Peter Riegel. Jean, an internationally recognized oenologist, assisting more than 300 wineries in the south of France and Peter, for more than 30 years importing and distributing organic wines from all over the world, together, with different perspectives, each with years of experience in wine, they decided to start their own wine story. Now, in making wine themselves, they have the excitement of defining their unique style from the interaction of the site's terroir and the unpredictability of nature. Every day brings a new lesson, a new challenge a new joy.

Our vineyards have been regenerated on the basis of Soviet Union heritage. In addition 10 years ago we planted vines from France. The uniqueness of our climate and terroir is determined by the combination of factors such as cold winters, antique type of cultivation characterized by the process of covering vines with snow, high mountains coated with glacier, dry climate and the location of the vineyards at 1000 metres above sea level. Thanks to these particularities our vineyards appear to the world's market as truly unique.

Cantine Franco was founded in Valdobbiadene in 1919 by Antonio, who set out right from the start to make a quality product. With his son Nino, who carried on the tradition, the winery grew, consolidated and expanded.

But it was Primo, first with his father Nino and later alone, who modernised the winery. From the moment he entered the winery, after earning his diploma at the Conegliano Veneto school of enology, Primo focused his work on a precise quality model he had got to know during his travels and study. At the beginning of the 90s, convinced that you need to control production right from the origins to obtain a good wine, Primo took over the running of a vineyard where he experimented with new planting techniques and the use of old clones. Meanwhile he continued his close collaboration with local producers, to develop his idea of promoting this grape.

Primo is helped by his wife Annalisa, who devotes almost all her time to Villa Barberina, and by his daughter Silvia in production, strategy and sales.

cavalleri@cavalleri.it
www.cavalleri.it

L'azienda Cavalleri è uno dei nomi storici della Franciacorta, ha deciso di rimanere una realtà familiare e di produrre nel massimo rispetto del territorio, esaltare la specificità dei suoli e condurre un modello agricolo sostenibile e pragmatico.

Serietà e rigore sono le parole che più si addicono nel descrivere questa azienda, i 42 ettari di proprietà sono distribuiti nelle zone più vocate della Franciacorta con vigneti di età media di 30 anni, coltivati con il cordone speronato e con una resa attorno ai 70 quintali per ettaro.

Proprio questi sono la grande ricchezza della Cavalleri, il punto di partenza imprescindibile della qualità, fondamentale per ottenere grandi vini.

Ogni parcella ha una precisa e marcata personalità ed esalta aspetti differenti del territorio, per sottolineare al massimo l'eccellenza di questa terra, dopo anni di studi, ricerche e osservazioni è oggi intrapresa con convinzione la strada del biologico, ma non solo a queste tecniche vengono affiancate delle pratiche di biodinamica.

Da qui un grande Chardonnay, vitigno principe di questa maison, con cui si producono i vini contraddistinti da nitidezza, carattere ed eleganza.

Anche in cantina come in vigneto, massima attenzione ai dettagli e alla qualità: le lavorazioni sono ridotte al minimo.

I Cavalleri sono dei vignaioli, la loro idea di eccellenza parte dalla terra.

The family winery Tement is situated in Berghausen, Southern Styria, on a small and impressing mountain plateau above the single vineyard Zieregg. Family winery Tement aims to make two different styles of wine. Under the appellation „Steirische Klassik“ one finds estate wines that are fresh and fruity, with lots of varietal character. They display the typical style of their grape variety and are fairly light in alcohol and matured in stainless steel tanks.

The second style is represented by the wines from selected vineyards or certain regions and are called "Terroir and single vineyard wines". These wines are made of the best single vineyards. They are naturally and slowly fermented and mature in big neutral oak casks until they are ready for bottling. Terroir wines exhibit independence as well as area-typical character and show great ageing potential up to 25 years.

Leuchtfleur des österreichischen Weinbaus

Die Bründlmayers sind das Musterbeispiel für den andauernden Erfolg des österreichischen Weinbaus: Erdverbunden und doch weltgewandt, charmant, kompetent und doch immer bescheiden, leben sie ein elegantes Understatement, das oft hinwegtäuscht über die fundamentale Kernkompetenz, die seit Generationen in diesem Kamptaler Vorzeigebetrieb erarbeitet wurde.

Das Traditionsweingut liegt in Langenlois, ca. 70 km westlich von Wien am Kreuzungspunkt zweier Täler, dem Kamptal und dem Donautal. Die Winzerfamilie produziert dort – zum Großteil in Terrassen angelegt – die österreichischen Paradesorten: Grüner Veltliner, Riesling und Zweigelt.

Als Spezialitäten des Hauses gelten auch der Chardonnay, der Pinot Noir, und der unwiderstehliche Bründlmayer Brut, für viele Österreichs bester Schaumwein. Die Rebsorten St. Laurent, Zweigelt, Merlot, Cabernet Franc und Cabernet Sauvignon vervollständigen ein vielseitiges Sortiment über das der „Falstaff Wein Guide 2016/17“ wie folgt urteilt: „Nahezu jeder Wein, vom leichtesten Grünen Veltliner über den Rotwein bis hin zum Sekt, hat das Potential Jahrgangsbester seiner Kategorie zu sein.“

Erwin Tinhof owns vineyards in Eisenstadt, that grow on the slopes of the Leitha Mountains. The grapes nurtured are indigenous varieties, and this has been so for 11 generations. The 14 hectare estate is cultivated in tune with local nature; Erwin Tinhof practises dry farming and does not apply any use of insecticides or herbicides, nor artificial fertilisation, to any of his vines. The estate vineyards are up to 55 years old, and contain grape varieties that are virtually completely Austria, such as the white Neuburger, Weißburgunder (Pinot blanc) as well as the black varieties Blaufränkisch, Zweigelt and Sankt Laurent. The wines are produced from estate vineyards and following a hand harvest and winemaking with minimal Intervention, the wines are bottled in Tinhof winery.

weingut@doennhoff.com
www.doennhoff.com

Weingut Hermann Dönnhoff from Oberhausen on the Nahe looks back proudly on over 250 years of history. Located in the Middle Nahe, a valley running between Bad Kreuznach and Schloßböckelheim, this region is known not only for its beautiful natural landscape but also for the grand, steep vineyards which have helped shape the area into a hub of Riesling excellence. The ancient soil of gray shale laced with weathered volcanic stone from black and red porphyry provides perfect conditions for the creation of powerful Rieslings; the finest are marked by the striking minerality and racy fruit that have distinguished great German wines since time immemorial. Weingut Dönnhoff owns 28 hectares of vineyards here, divided into nine "Grand Cru Lagen" and counted among the finest in the entire region. The wines have garnered international recognition for their fine elegance and sensual depths that so distinctly represent the different terroir of the individual vineyards. Helmut & Cornelius Dönnhoff have received numerous awards for their work, including: 1999 Winemaker of the Year (Gault Millau and Feinschmecker), 2003 Wine Personality of the Year (Wine Advocate), 2010 & 2011 & 2012 & 2015 Best Dry Riesling (Feinschmecker), 2012 Estate of the Year – Best White Wine Collection (Eichelmann), 2012 Seigneur du vin (Grand Jury European) and 2014 Winemaker of the Year (FAZ).

Visionary Wines and Traditional Winemaking

With 120 ha of vineyards we are Germany's largest organic farmed wine producer. Heitlinger is a specialist for dry wines of Pinot varieties and Riesling. The soil of colored limestone, formed 160 million years ago, is responsible for the specific and individual mineral character of our wines.

The vineyards of Burg Ravensburg were first mentioned in official documents in 1251. This makes the wine estate among the world's oldest. The excellent terrain, mineral-rich soils, lays the foundation for extraordinary wines of Riesling and Blaufränkisch.

F +49 6723 6666info@schlossvollrads.com
www.schlossvollrads.com

Schloss Vollrads is the name of a castle in the Hessian Rheingau region, situated above the town of Oestrich-Winkel and about 2 kilometers from the banks of the river Rhine, which counts among the oldest wine estates in the world. The history of this wine estate solely dedicated to the production of Riesling, with its castle to this day still fully decorated in period-style, its impressive residential tower, a wine shop and its own Gutsrestaurant (manor house restaurant), dates back to over 800 years ago. Nevertheless, Schloss Vollrads is now part of a thoroughly modern operation that, unlike almost any other German winery, has managed to combine tradition and modernity in a harmonious yet professional fashion.

Schloss Vollrads cultivates a total of 80 hectares, 48 of which are situated around the castle and thus belong to the single vineyard site eponymously named Schloss Vollrads. A further 17 hectares of vineyards are located in the town of Geisenheim, at a distance of just about 10 kilometers.

Carolyn Spanier-Gillot und H.O. Spanier führen seit 2006 gemeinsam die beiden Linien Kühling-Gillot und BattenfeldSpanier in einer Familie. Mittlerweile zählen sie zu den besten und anerkanntesten Weingütern in Deutschland, was die Spitzenbewertungen in den wichtigsten Weinführern nachhaltig unterstreichen. Zeit lassen, Neugier, Lust, Riesling, Stein, Schiefer, Terroir-Weine und die biodynamische Arbeitsweise sind einige Stichworte, mit der die Weinkultur der Beiden treffend definiert ist. Kühling-Gillot & BattenfeldSpanier können ein unglaubliches Lagenportefolio am Roten Hang und im Wonnegau als Ihres bezeichnen. Ihre 9 Grand Cru Weine stammen aus den Top-Riesling-Lagen am "Roten Hang" (Ölberg, Hipping, Pettenthal und Rothenberg) und aus dem südlichsten Teil Rheinhessens, dem sog. Wonnegau. Die Spitzenlagen von BattenfeldSpanier wie das Kirchenstück, Frauenberg, Zellerweg am Schwarzen Herrgott, sind geprägt von den kargen Kalkformationen der Region. Seit Oktober 2015 haben Sie aus Ihrer Leidenschaft für gutes Essen die Plattform und Veranstaltungsreihe „Liquid Life“ entwickelt. Regelmäßig wird die moderne Vinothek in Bodenheim zum Treffpunkt nationaler und internationaler Köche und Szenegastronomen.

In 1902, the Prussian state founded the domaine and purchased the first areas of land: steep, craggy and rocky land incl. a former copper mine. Building the vineyards was a gruelling task. Rocks had to be blasted and huge masses of earth moved. In 1903, the first Riesling vines were planted. In 2010, the former state domaine changed its name to Gut Hermannsberg. By extensive investments in the care of the vineyards and the modernisation of the cellars, as well as a complete revision of the quality concept, the winery hopes to once again enjoy the success of years gone by.

Gut Hermannsberg today owns a 30-hectare vine area with all vineyards classified by VDP as 'Great Site'. The vineyards are mostly circled around the art nouveau-style winery building. The steep slopes such as the legendary Kupfergrube (copper mine), the monopole Hermannsberg and the unique Traiser Bastei rank among Riesling's best vineyard sites in Germany and the world. This potential is something we are obligated to fulfill in the coming years. Unique wines: mineral-based, full-bodied and precise as only the wines can be here.

info@august-kessler.de
www.august-kessler.de

The August Kessler Vineyard was founded in 1924 and is located in the village of Assmannshausen on the Rhine River directly on the slope of the famous Assmannshäuser Höllenberg, a mountain in the western part of the Rheingau region. August Kessler was only 19 years old when he took over the family business from his parents.

Today, the August Kessler Vineyard has a total of 36 hectares distributed across the communities of Assmannshausen, Rüdesheim, Erbach and Lorch. The winery's main focus is the uncompromising production of first-class Rieslings and Pinot Noirs. The vineyard's special feature is its unique terroir, that is to say the environmental features in which its wines are grown. Indeed, the steep and sunlight-drenched south and southwest-facing slopes combined with the location directly on the Rhine and the inimitable site-specific soil conditions provide for a particularly high grape quality with an unmistakable character.

The wines are vinified in a cellar built in 1792 in the cliffs of the Assmannshäuser Höllenberg. In order to bring the flavour of the terroir to each individual bottle, after a process of soft-pressing, the white grapes are fermented and aged in stainless steel. In keeping with traditional open fermentation, the Pinot Noirs are stored up to 22 months in individual barrels and then composed – following a series of meticulous tastings – with much love and passion.

Odinstal is a magical place consisting of vineyards, meadows and mixed forest. Perched high above the rest of the region and situated next to an old volcano, we produce white wines at an altitude of 350m above sea level. We grow the vines biodynamically with a result that's unique in Germany.

Thirty-Five million years ago a volcanic eruption mixed up the geology here and created four totally distinct soil-types on our hillside. The single block selections are named after these different soils: Muschelkalk, Keuper, Buntsandstein, and Basalt.

The 350 N.N series wines are named after the altitude of the vineyards, as is the old-vine Riesling 120 N.N.

The collection is completed by our noble-sweet Rieslaner Auslese, which grows in the highest parcel of the Schlossberg hillside and is located directly above the Wachenheim castle. The total production is very limited, around 25,000 bottles per vintage.

Das 1880 gegründete Weingut Georg Breuer befindet sich seit Anfang des letzten Jahrhunderts im Besitz der Familie Breuer.

Georg Breuer, dem der Betrieb seinen heutigen Namen verdankt, baute Export und Gut weiter aus, seine Söhne Heinrich und Bernhard Breuer erweiterten die Rebfläche schließlich auf 30 Hektar in den besten Rüdesheimer und Rauenthaler Lagen.

Von den frühen 80er Jahren an konnte das Weingut dank der Visionen und der Arbeit von Bernhard Breuer internationale Anerkennung gewinnen. Heute wird es von seiner Tochter Theresa Breuer mit der Unterstützung des langjährigen Kellermeisters Hermann Schmoranz geführt.

Wir bewirtschaften 34 ha Weinberge in Rüdesheim (27 ha) und Rauenthal (7ha) im Rheingau, davon rund 50% in Steillagen. Rebsorten: 85% Riesling, 10% Spätburgunder, 5% Grauburgunder, Orleans, Heunisch und Weißburgunder.

Die Weinberge werden ökologisch bewirtschaftet und im Keller steht die Tradition in Verbindung mit Präzision an oberster Stelle um den reinsten Fingerabdruck der einzelnen Lagen in den Vordergrund zu stellen.

Unser eigener Geschmack für Wein, lässt uns mit jedem Jahrgang das Ziel verfolgen, trockene Spitzenweine aus besonderen Lagen des Rheingau her zu stellen.

Weingut Robert Weil, founded 1875, is run today by Wilhelm Weil, the fourth generation of the founding family. The estate's 90 ha (222 acres) of hillside sides vineyards are planted 100 % with Riesling. Throughout its history the estate has always focused on the Riesling grape and adhered to strict, quality-oriented practices in the vineyard and in the cellar. The estate's dedication to Riesling since 1875 has led numerous observers of the international wine world to regard Weingut Robert Weil, with it's "château character" as a worldwide symbol of German Riesling culture.

Zwölberich is a family run Wine Estate since 1711 located in the Nahe valley.

We cultivate vineyards over an area of 33 hectar.

Quality begins in the vineyard, with good quality soil and healthy grapevines.

With this in mind the Zwoelberich Wine Estate has practised organic wine cultivation methods since 1993 and is a Demeter Association Member. We offer you Aroma-rich wines, award-winning flavours – and every bottle is unique.

Types of Wine:

- White wine: Riesling, Pinot Gris, Silvaner, Auxerrois, Pinot Blanc, Wuerzer, Kerner
- Red wine: Pinot Noir, (late harvest), Fruehburgunder (early harvest), Blauer Portugieser, Dornfelder, Dunkelfelder; St. Laurent, Regent

Our Estate has been in the family for roughly 230 years.

Especially in the last three decades our appreciation of this long-standing tradition has determined the way we work more and more. With respect for the knowledge and the experience of our forefathers, we have been working as a fully certified member of the Demeter association since 2004, according to biodynamic principles. Consequently we have gotten ever closer to our idea of a soulful wine in the greatest possible harmony with nature. A great affirmation of our work and our journey was the victory at the German Riesling Competition with our 1991 Riesling of the Oestrich Doosberg. This was one of many small, but important milestones in our development.

T +39 0583 975048
F +39 0583 974675

info@duemani.eu
brand@duemani.eu
www.duemani.eu

DueMani are two people: Elena Celli and Luca D'Attoma. Two different paths that met and, in 2000, choose Riparbella as the birth place of their project.

They choose an extreme and surly place, with predominantly clay soil, full of stones and surrounded by Mediterrean bush to produce organic wines; a hill that smells of both sea and forest, facing the coast, at an altitude of about 250 meters above the sea level.

Sun, light and breezes provide continuous temperature variations, generating heavy scents and slow ripening.

The shape of the slope forms an amphitheatre with three vineyards, covering 10 hectares: Cabernet Franc in the upper part, Merlot further down and a small Syrah vineyard in the middle. Here climate and soil are ideal for these varieties, which grow to achieve a perfect balance and excellent ripeness, the maximum expression of the fruit and terroir. "We have realized our dream, producing wines from grapes that we prefer in an ideal area, we learned biodynamic agriculture and still want to work to improve the quality of our soil, we made wines which are spoken about around the world, they are exclusive and refined, but also for enjoying the simplest moments".

Duemani wines are all Demeter certified organic and biodynamic.

The ethical Chef Days

Our awareness of nature's rhythms and cycles has been perfected through observation over time: each season opens new horizons, every day we learn and understand a little more.

We have learnt to pay attention, to grasp the subtle differences existing in nature and to preserve the true character of the grape in the expression of its land of origin.

Our daily farming gestures are elevated to creative impulses: we wake up every morning conscious about being free to work according to the message that the earth conveys to us in that moment.

We work surrounded by mountains, cultivating Teroldego and Pinot Grigio on alluvial soils of the Campo Rotaliano, Nosiola and Manzoni Bianco on the calcareous-clayey hills of Cognola.

We are certified by ICEA and Demeter since 2009.

The health of the vines - 7 hectares of vineyards exclusively grown for the Sangiovese wine - confirms the quality of the crop choices made. Each plant is treated individually in a flawless manner, lulled by the music of Mozart, and grows in an environment rich in biodiversity. The grapes harvested by hand for the production of the biodynamic wine go through a very severe selection in the cellar, inspected and selected by sixteen employees. The wine is fermented in vats without temperature control and without added yeast and finally arrives in the Bottai. Here MaraMia is born, a red wine, unique, biodynamic and 100% Sangiovese.

The Burja Estate connects a traditional Vipava winegrowing farm with modern understanding of wine. We believe in integrity, rather than individual actions that solve one problem and open three new ones. We respect local varieties. We think that micro flora is an important part of each vineyard's identity. The work in our vineyards, which are treated according to the principles of biological and biodynamic production, is in the spotlight. We are getting to know the details of soil and climate diversity for individual locations and we try to use this information to adjust different varieties and vineyard cultivation. In the wine cellar we control the temperature and oxidation. We try to work in synergy with the vine, wine and nature, including stimulating spontaneous fermentation, which ensures the contact between grape skin and must also with the white wines. According to our opinion, the diversity of yeast strains contributes to the complexity of the wine and provides original expression of each vineyard.

In 1690 Château Chambert vineyard's already covered the finest terroirs of the highest part of Cahors, in South-West France. For centuries, its Malbec wine was enjoyed by Popes in Avignon, in Czarist Russia and officers in Bordeaux. Exported all over Europe, it was known in England as 'Black Wine'.

Today, Philippe Lejeune pursues excellence on that vineyard of over 145 acres of vines. The limestone soils of clay with red iron oxide produce unusually refined wines with good minerality. Biodynamic wines (Demeter).

www.lesgravesdeviaud.fr

The estate first began in 1850 and has been mentioned in the Féret since 1875.

From 1945 to 1993, the grapes harvested on the estate contributed to the Pugnac's collective winery. In 1994 a new wine caves built so that they could produce their own wine. The wine was mentioned in Les Grands Vins de France magazine from its very first harvest. It went on to earned 11 medals over the following years.

In 2010, Philippe Betschart and his family took over the property. Betschart comes from a family of a long line of Bordeaux merchants. In taking over the estate, the family is not only getting back to its roots, but is looking ahead to the future; their first goal is to transform the estate into an organic and biodynamic winery.

Organic and Biodynamic winery. In conversion since 2011, fully certified since 2014.

Sulle alte colline di Monteforte e Soave, Foscari e Zoppegga, si trovano i vigneti dell'Azienda Agricola Anselmi.

Le piante di vite esposte a mezzogiorno si estendono lungo settanta ettari di terra calcarea di tufo vulcanico ed il principale vitigno coltivato è la Garganega.

La vigna ad alta densità per ettaro, la selezione di cloni di Garganega meno produttivi e più aromatici, il cordone speronato permanente, la riduzione del numero di grappoli per pianta, la vinificazione curata nei dettagli, la macerazione a freddo, la fermentazione a bassa temperatura e il lungo affinamento, hanno dato vini di qualità riconosciuta.

La cantina si trova a Monteforte d'Alpone ai piedi delle colline.

È una cantina moderna, tecnologicamente all'avanguardia, in continua evoluzione, con più di 500 barriques e 8000 ettolitri di capacità di affinamento dei vini "sur lie" con "batonnage" a temperatura controllata.

La produzione annua oscilla mediamente tra le 650.000 e le 700.000 bottiglie: il "San Vincenzo", i due cru "Capitel Foscari" e "Capitel Croce", il passito "I Capitelli" ed il Cabernet Sauvignon "Realda".

Back in 1897 Domenico Triacca acquired 2,000 square metres of vineyards in Valgella, one of the best areas of the Valtellina. He built a small cellar to turn his own grapes into wine and allow them to mature, thereby establishing the Triacca "philosophy" of making wine exclusively from its own grapes – the essence of the "Dalla mia vigna" logo, which means "from my vine". Triacca's once modest holding has since gradually expanded to cover 40 hectares. The Triacca family later decided to grow vines in Tuscany, and in 1969 they acquired the Tuscan estate "La Madonnina", in the heart of the Chianti Classico region. Today they have specialised vines covering some 100 hectares.

In 1990 the family went on to acquire the "Santavenere" estate with 36 hectares of vineyards in the Vino Nobile di Montepulciano area, and in 1999 they entered the Maremma area by purchasing the "Podere Spadino" with its 40 hectares, planting Sangiovese vines on seven of these.

www.vinivalori.it

Located in one of the best areas of production of the DOC Montepulciano d'Abruzzo in the province of Teramo – and the only regional DOCG – the Valori winery consists of 26 hectares of vineyards in the villages of Controguerra and Sant'Omero. Characterized by a hillside at the foot of the Grand Sasso and the proximity to the Adriatic Sea, they enjoy a south-south-east exposition and an altitude ranging 160-300 meters above sea level.

Since 1996 Luigi Valori produces with extraordinary passion authentic wines, which are the result of a relationship without filters between man, plants and the land they inhabit. The soil is averagely sandy, poor in nutrients but rich in mineral that, forcing the vines to their limit, are capable of generating high quality and balanced grapes, optimally reaching the phenolic maturity.

Luigi Valori believes that the vineyard, as a human being, needs to suffer and be taken to the limit in order to give its best. This way, it produces excellent and balanced grapes and therefore extraordinary wines. "Working in the vineyard has been the experience of human growth most extraordinary of my life" says Luigi Valori, "because it taught me know my limits, before making good wines."

Le Macchiole is located on the Bolgherese road, at around 5 km from the sea in the heart of the Bolgheri Doc area. It extends over 27 hectares, with high density plantation and low yields ("one bottle of wine per vine").

Since 2002 Cinzia Merli Cinzia has maintained Le Macchiole's philosophy, pursuing the goal shared with her husband Eugenio: to produce high quality wines expressing the territory through their strong personality.

The estate distinguishes itself by the value given to the "terroir" and pursues quality and tipicity through research and experimentation always privileging the work in the vineyard, in full respect of the biological cycle of each vine.

We now produce 5 wines: Messorio, Sciro, Paleo, Bolgheri Rosso e Paleo Bianco, with a total production of around 150.000 bottles per year.

Guado al Tasso estate is located near Bolgheri on the Tuscan coast, 96 kilometers (60 miles) to the southwest of Florence. The 300 hectares (750 acres) planted to vineyards on the property are in the center of the so-called "Bolgheri amphitheater": rolling hillsides which surround a splendid plain which slopes gently towards the sea and create a micro-climate with unique characteristics. Guado al Tasso, the flagship wine of the estate, expresses all of the force and suppleness of this corner of the upper Maremma. It has contributed to raise Bolgheri to the level of the most important areas of Europe's viticulture, expressing a decisively Mediterranean character of power, elegance, and balance.

The ethical Chef Days

Monteverro owes its existence to the perseverance and passion of its owner. In 2003, Georg Weber purchased the piece of land in Capalbio (Maremma) where he planted the first vineyards and built the winery. With a pioneering spirit and great attention to detail, Monteverro produces its four wines in limited quantities and with a careful selection of its 30 hectares of grapes.

Respect for the grape expressed by each lot and the awareness that nothing should be added to what nature has created are taken into consideration at all times during harvest and winemaking.

This translates into micro parceled harvest, natural fermentation, gravity fermentation, no fining and a only light filtering- just for the Chardonnay.

Maremmalta has been producing the finest quality wines since it opened as an Azienda Agricola Biologica. Its foundation is built in the hillsides and rocky foothills in the region recognized as Maremma Toscana Coast Appellation – this region experiences long, even growing seasons thanks to the cool, foggy coastal climate. In the early 2000, the Maremmalta planted several different local grapes varieties and virtually overnight Maremmalta grapes had gained a reputation for exceptional quality and were in high demand by many premium wineries.

Oliviero Toscani farm was established in 1970 when world famous photographer Oliviero Toscani decided to make the hills of Casale Marittimo his home. What started as a genuine passion for the local landscape and horse riding on the beach with his family is now a dream-come-true estate. Overlooking the Tyrrhenian Sea, the estate is home to a world renown Quarter Horse breeding facility, corn fed Cinta Senese pigs that are cured in Parma, homing pigeons and over 4,000 olive trees that produce an outstanding extra virgin olive oil.

The amphitheatre-like vineyard was planted in 2002, on the red iron-rich grounds of the surrounding hills. On this soil, Syrah, Cabernet Franc and Teroldego find a perfect habitat, condensing all the perfumes and stories of authentic Tuscany into the magic of OT wines.

Nikolaus Buchheim
Roland BuchheimLocalità Pereta
I - 58051 Magliano in Toscana (GR)buchheim@nibbiale.com
www.nibbiale.com

Our family's long-cherished wish was fulfilled when the wine estate Poggio Nibbiale was founded in 1998. The dream to grow wine amidst the impressive scenery of southern Tuscany became reality. During the following years we cultivated 11 hectare of land, established a modern winery and restored the medieval cellar from the 13th century below the church of San Giovanni Battista in Scansano. The estate's major part however is still governed by nature, the Mediterranean macchia with its almost impenetrable vegetation, old cork oaks, genista in full bloom and wild olive trees. Our vineyards are located in the hills of the Maremma between Scansano and Magliano in Toscana, 300 meters above the Tyrrhenian Sea with a magnificent view of the islands of Giglio, Elba, Montecristo and the Monte Argentario peninsula. Right from the start, we decided for organic viniculture and refrained from farming practices that aim primarily at a high yield. It is important for us to endow our wines with aromatic depth, refinement and complexity. Based on a deep understanding of the agricultural traditions of Tuscany and profound ecological knowledge, the estate's enologist, Dott. Massimo Albanese, creates multi-layered wines abounding in elegance and regional authenticity. Our family's philosophy of winemaking is simple: No show but quality, no vagues but sustainability and most importantly: passion, dedication and a true appreciation for our land and its natural riches.

The Birth of the Pianirossi estate is before all the fruit of the vision and efforts of Stefano Sincini, its owner. A respected fashion entrepreneur born and raised in the culture of wine, Sincini discovered this magnificent location in 1999, at a stonethrow from Castello Banfi and the first slopes of Montalcino. At that time the estate was not dedicated to wine only. Struck by the beauty of the place and the potential of the territory, he gathers around him an enthusiastic and highly competent team, under the advice of acclaimed oenologists Carlo Ferrini and Gioia Cresti. A special 'terroir' like Pianirossi deserved a wine of its own, not just a copy of other successes. Stefano Sincini decided to bring from his native Marches plants of montepulciano to complement the traditional Tuscan sangiovese and the alicante and petit verdot. The vineyard has been completely reorganized, using the best clones and the latest vine training techniques. Natural slopes provide optimum water management and exposition. No doubt that with the ageing of the vineyard, Pianirossi will become a point of reference in the new generation of Toscan estates, with a style and personality of its own. The Pianirossi estate also hosts a beautiful 'agriturismo', nested in the breathtaking Maremma toscana nature. In this exceptional landscape of hills and old farms, one can enjoy the view of wild animals in the vineyard, after a day visiting the city of arts of Tuscany .

Diesel Farm is a biosphere. It extends over a hundred hilly hectares pre-Alpine land, in the north of Vicenza province, and includes ancient forests of deciduous and coniferous trees, pastures, olive groves, orchards, vegetable gardens and vineyards, of course.

The intention is to preserve the ecosystem integrity, in which man, as a guest, will be able to identify the subtle balance of flavour that nature seasonally condensed in plants by the ripening of the strawberries, cherries, apricots, grapes, apples, olives and chestnuts.

Yields and productions are the antithesis of the modern industrial production logic and commercial needs; special care is aimed to balance and pleasure of sharing the experience of nature depth and intimacy, which in this environment is a special combination of the warmth of the Mediterranean climate and the freshness of the Alpine foothills, of the flavour of paleo-lake seabed and the acidity of basaltic depths of the ancient volcanoes, of the plain and the mountain.

The two main aims are:

1. The digestibility of the products: both in the environment (intended as sustainability of human productive activity in the ecosystem) and food (aiming at reducing allergens, residues, sweeteners, preservatives, etc. to zero); a quality food should combine lightness and flavour;
2. The longevity of the products: the ability to evolve positively over time without the use of preservatives, thus aligning all productive variables, which virtuously allow a natural and healthy aging.

F +39 055 99 29 57contact@caberlot.eu
www.caberlot.eu

Carnasciale is situated in the southern Chianti hills in the Valdarno di Sopra region of Tuscany, between Arezzo, Siena and Florence. Founded by Wolf Rogosky, the estate is run today by Moritz and Bettina Rogosky, together with the enologists Marco Maffei and Peter Schilling. The Caberlot grape was first identified in the late 60's in an abandoned vineyard near Padua by agronomist Dr. Remigio Bordini. While it has the organoleptic characteristics of Cabernet Franc, its ampelographic profile is closer to Merlot, leading us to assume that the loose-cluster Caberlot is a natural crossing of the two varieties. The 'Carnasciale' vineyard was planted in 1986 and four plots have been planted since, for a total of 3,5ha in production. The variety is cultivated exclusively at our winery, and we work in the vineyards with total respect for the soil and the plants. Pruning, budding and leaf-management are done by hand, no chemical fertilizers or pesticides are used, all sanitary treatments are natural. Severe selection at harvest follows the motto 'what you would not put into your mouth will not go into the wine', with yields at 25hl per hectare. In the cantina we believe in minimally invasive, hands-off enology, allowing the fruit, the vintage and the characteristics of each vineyard to play the leading roles. We seek elegance, typicity and tension in our wines, and the use of sulfites is kept to a strict minimum. After malolactic fermentations in wood, the wines are racked in barriques sourced in Burgundy, 60% new, and aged for 22 months. Each barrel is then tasted to select the most complex wines for Il Caberlot, and the more forward wines for Carnasciale. Il Caberlot is bottled unfiltered in hand-numbered magnums, which mature a further 16 months prior to their release.

F +39 06 79340114fiorano@fattoriadifiorano.it
www.fattoriadifiorano.it

The history of the Fattoria di Fiorano starts with Alberico Boncompagni Ludovisi, the Prince of Venosa, who inherited lands along with Appian Way in 1946, at the footsteps of Rome. He decided to plant four grapes: Merlot, Cabernet, Semillon and Malvasia di Candia, and to cultivate them according to principles that govern modern organic agriculture, anticipating the future of farming. As time went by, the Prince of Venosa started to produce one red wine and two white wines, unique Formattato: Tipo di carattere: 12 pt, Inglese (Stati Uniti) and striking and reserved for the few coinnosseurs who were able to taste the fruits of his labor and his production techniques as an avantgarde, forward-thinking winemaker. The story of Fiorano became a legend, one of a man who sold few bottles, to a select group of experts and aficionados. He was stubborn and decided to protect the relationship he had with his grapes, so much so that he uprooted most of his vines when he retired from winemaking.

From the royal legend of the Prince of Venosa, eight vines of the historical vineyard on the land of Fiorano have remained, four of Cabernet and four of Merlot. From the precious remnants of their grandfather's vineyard, the three granddaughters Allegra, Albiera and Alessia decided to revive the Fattoria. A continuity with the intent to uphold the values of the family, and with a way to breathe life into the Fattoria di Fiorano.

I costanti, Patrizi senesi del XV° secolo, compaiono nella storia di Montalcino con le epiche vicende che portarono alla creazione della Repubblica di Siena in terra Il cinese, nell'anno 1555.

Ma ciò che oggi più interessa è che nella "archeologia" del Brunello di Montalcino, vino ormai più che centenario, compare con chiara evidenza il nome di Tito Costanti, conte ed avvocato; a lui insieme ad altri produttori montalcinesi, risalgono le prime tracce del nome "Brunello" per i vini di Montalcino.

La dedizione al Brunello con carattere di vera primogenitura caratterizza l'opera dei Costanti sino ad Emilio, medico e Viticoltore, al quale si deve l'ampliamento della commercializzazione del vino del Colle al Matrichese. Da allora il Brunello Costanti iniziò ad essere via via più conosciuto in Italia e nel mondo; il successo commerciale fu immediato e le richieste si rivelarono già ad allora di gran lunga superiori alla poche bottiglie prodotte. Emilio Costanti aveva ripreso e perfezionato l'antica etichetta di famiglia, e su quelle poche centinaia di bottiglie si venne consolidando l'immagine di una cantina storica del Brunello di Montalcino.

Andrea Costanti conduce oggi l'azienda nell'originaria terra montalcinese dei Costanti, il "Colle al Matrichese" proseguendo una quadricentenaria tradizione.

Querceto di Castellina is a family-run, organic winery in the Chianti Classico who wholeheartedly believes great wine begins in the vineyard. Committed to producing wines with a true sense of place, the winery focuses solely on those grape varieties best able to express their distinct terroir. And they're equally passionate about the earth being sustainable from the start in 1998 and certified organic since 2012.

Superb wines resplendent for their harmony, balance, and elegance.

Wine estate Castello di Ama nestled among gentle hills in the small hamlet of Ama, in Gaiole in Chianti; at approximately 480 metres above sea level, it lies in the heart of the Chianti Classico historical zone.

Castello di Ama produces wines made exclusively from grapes from its estate vineyards, grown on four famous magnificent, shell-shaped hillside slopes.

The sixteenth century property is blessed with fine galestro and alberese stone soils and superior terroir.

2015	Ama 96% Sangiovese, 4% Merlot Chianti Classico D.O.C.G.

Montevertine lies within the heart of the Chianti hills, in the community of Radda at an altitude of 425 m above sea level. The Winery was founded in 1971 by Mr. Sergio Manetti and is now run by his son Martino. The total surface of our company's vineyards covers currently approximately 18 hectares. About 90% of all vines planted are Sangiovese grapes. The remaining 10% includes Colorino and Canaiolo. All our vineyards are cultivated following organic methods. Our wine-making procedure is extremely traditional and it has been never varied since the very first vintage.

Tenute Cisa Asinari dei Marchesi di Grésy produce fine wines coming from four different estates, two located in Langhe - Martinenga and Monte Aribaldo – and two in Monferrato – La Serra and Monte Colombo –.

Martinenga is the only monopole in the Barbaresco d.o.c.g., property of the family since 1797, is widely considered one of, if not the best, vineyard in the area. Here the nebbiolo does not exceed in strenght, but excels in class and elegance, hence Martinenga Barbarescos are uniques and immediately recognizable.

Our aim is to bring the sublime class of our terroir straight into the bottle. We therefore concentrate most of our efforts into taking the best care of our vineyards - in a biological way - and let the quality of our estates speak for itself, rather than trying to “build” wines in the cellar.

Since 1881, five generations of our Family have followed one another in guaranteeing and protecting continuity in the quality and style of Pio Cesare's wines. Our cellars are located in the historical center of Alba, built on the 2,000-year-old city's ancient Roman walls.

We own 70 hectares (173 acres) of vineyards, featuring high-quality hillside exposures intentionally located in multiple communes of the Barolo and Barbaresco appellations. Rigorous selection of our grapes and restrained yields in the vineyards – taking into account each vine's physiological balance and needs – have from the start meant that we produce only limited volumes of each of our wines, always of the highest quality.

Tenimenti Rossi Cairo is the brand that puts together La Raia and Tenuta Cucco, two wine-growing farms owned by the Rossi Cairo family and run by Piero Rossi Cairo.

La Raia, set in the heart of Gavi's gentle hills, in Piedmont, is a biodynamic farm Demeter certified since 2007. It consists of 180 hectares of biodynamic vineyards, cereal fields, Fassone cows breeding farm, chestnut and acacia woodlands. In this exclusive ecosystem, a special production of honey and a multi-awarded production of three types of Gavi D.o.c.g. and two of Barbera Piemonte D.o.c.

Tenuta Cucco, in Serralunga d'Alba, was taken over by the family in 2015 and is set at the roots of the famous castle. The vineyards extend over 13 hectares, in which, besides Nebbiolo for Barolo, we grow Dolcetto d'Alba, Langhe Nebbiolo, Langhe Chardonnay and Barbera d'Alba. Here too the choice of introducing the organic approach.

The aim of both estates is pursuing quality excellence through sustainable agriculture which values biodiversity and preserves the terroir, favouring future generations.
